BUILT FOR THE EXTREME.

ELEGANCE BY DESIGN.

Our outdoor and lifestyle fabrics combine functionality with aesthetics. They are flexible, comfortable and provide reliable protection – whether outdoors or in everyday urban life. Sustainable materials ensure that design and responsibility go hand in hand.

OAK
200 g/m²

WATER-REPELLENT

Water beads off the surface and does not immediately penetrate the fabric. This keeps the material dry in rain and splashing water.

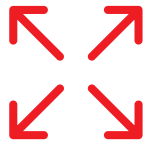

RECYCLED-FIBRE-MATERIAL

Recycled yarns combine sustainability with durability. They guarantee long-lasting quality and reliable strength.

K2715 WR
140 g/m²

BI-ELASTIC

Stretchable in both warp and weft, the fabric adapts effortlessly to every movement. This ensures maximum flexibility even in active use.

BREATHABLE

Air and moisture can circulate freely. This creates a pleasantly dry feeling – even during intensive activity.

DIN EN ISO 9237

ALVA
K2363
275 g/m²
